DCD925L2 18V LI-ION XRP COMBI

DEWALT

Why does the All New XRP get your job done faster?

Power

The XRP range has been developed to provide optimum torque and speed across all common applications which means whatever the job, XRP gets it done faster.

Compact

Designed around you and your job, the All New XRP is extremely compact and ideal for single handed operation which means jobs where space is restricted have never been easier.

Balance

The All New XRP has been designed with your comfort in mind, and as such is DeWALT'S leading drill in terms of its balance, weight and length, giving you total control in all common applications.

Grip

Our rubberised ergonomic grip has been specifically designed to reduce fatigue – meaning you can apply the power of XRP for longer and finish your application faster.

With all these features packed into a lighter weight and more compact body, ALL NEW XRP is OUR BEST EVER RANGE OF PREMIUM HAMMER DRILLS AND DRILL DRIVERS... allowing you to get your job done faster.

Accessories

Optimise the performance of your XRP by using the right accessories to develop the PREMIUM SOLUTION:

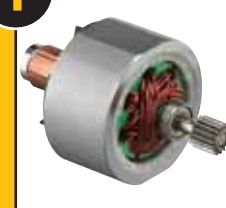

ALL NEW

Why do we believe this to be the best drill we have ever made?

1

New frameless motor

For faster more efficient power delivering 30% more runtime.

2

New all metal 3 speed transmission

For optimum speed and torque giving greater durability and ease of use.
Gear 1 0-500RPM, Gear 2 0-1250RPM, Gear 3 0-2000RPM

3

Dual action collar

Fast mode changes and 22 screw driving settings for a wide range of fasteners.

4

Lithium Ion Battery System

With no memory effect and virtually no self-discharge, using a Lithium Ion battery pack leads to less down-time, helping to maximise your productivity.

TRIED & TESTED

'It was great to get my hands on the new XRP drill. I was surprised how powerful this compact 3 speed combi is. Most of all it's much quicker than any other drill I have used.'

Paul Smith - Joiner

'This drill fits into my 18 volt system. Even though I have bought a Li-Ion version the batteries still fit my old 18 Volt machines and when the batteries eventually run out I can still use my old NiCd or NiMH batteries.'

Dean Stanford - Landscape Gardener

GETS THE JOB DONE FASTER

SDS-Plus**

DEWALT is proud to announce the launch of
DEWALT XLR™ Full Head Carbide SDS-Plus drill bits

- DEWALT XLR™ SDS-Plus drill bits offer significant benefits in terms of drill bit durability and long life to users with the hardest applications
- Available in 2009 in diameters from 5mm up to 12mm and lengths of 110mm up to 460mm
- Made in Germany

DT8977
10 Piece XLR
Tough Case

CONSTRUCTION BLADES

DEWALT construction blades are designed for use with stationary and portable machines to cut softwoods and composite materials. Their fast, smooth cutting action and durable construction make them ideal for demanding jobsite operations.

Key features

- Precision ground cutting angles for excellent blade sharpness and faster cutting
- K20 extra robust carbide and unique wedge shoulder design for greater durability
- Thick steel plate hard body for professional quality.
